

Us

Green was the grass you laid me on
Blue was the sky you kissed me on
Gold was the love we lived upon
And red was the ending that preyed upon us

White was the truth you spoke to me
Green was the life that set us free
Ebony the night you held me
And gold did not compare to the value
I placed on us

That's what they thought about us
That's what they knew about us

Waterproof, shatterproof, winter-proof, heatproof,
Scratchproof, bulletproof, leak-proof, and shatterproof, and bulletproof
They were so wrong about us
